**Retailer Notes:**

Continuing our practice last month of bringing back things that haven't been around for a while, we've got Adieu Galaxy Express 999, Grey, and Wicked City, and we've added JEM (hey, it's Truly Outrageous!), GI Joe and some vintage Transformers to boot! Apart from that, we've got a few new Mononoke items (just in time for the theatrical release) and the end of Lain (much too soon, if you ask us). Finally, after months of work, the new 1999 / 2000 Stuf catalog is complete and now printing!

**JEFF'S PICK(S) OF THE MONTH**

Perfect Blue is a cool film, but I think that the nostalgia folks will be going for all that Transformers stuff. For the more traditional anime fan, Nadesico is an absolutely excellent series and I think everyone out there (who hasn't already seen it) will love it! Finally, if you can't wait to see our new catalog, it is now posted at http://www.rightstuf.com/catalog.html for download!
